Euroship Services have more than 20 years of ship and yacht design and building experience. Our aim is always to build your choice of Luxe Motor but influence your choice with practical and economic sense. Rarely are two vessels constructed the same because each customer has their own design preferences but each one follows our strict criteria of excellence-of-purpose. One of the popular reasons why the capacious Dutch Luxe Motor barge is chosen for its historic shape, a classic design that has stood the test-of-time.
